

## Loan Collection

The collection of Loan material at Quex is available for a two-week period, which can be extended by prior arrangement. The Museum is an educational charity and therefore provides this service for free. Objects can be collected and returned Monday to Friday from 9:30am to 4:30pm, please ring to notify us of your visit. When visiting why not take the opportunity to look around the museum and discuss what we can offer on site to support your teaching programme.

If object sets are required for a specific theme we can provide loan boxes with a resource pack. These are in the developmental stage so please give at least two weeks notice to allow us to prepare the pack. We also have the facility to visit the school with objects as part of our outreach programme. There is a charge for these additional services.

Object set and resource pack (single subject KS1&2)	}	Call for details
